6. In up to 200 words, describe the contents of your project. This is your Conference Abstract and it will appear, exactly as you type it below, in the publicly available Conference Program.

7. Briefly describe the way in which you will present your project. (Examples: as a 15 minute talk illustrated with overheads; as a PowerPoint presentation; as a CD-ROM or web-based demonstration, etc). Of course, you may wish to use a combination of methods. However, all projects must include some form of spoken address: so please be sure to estimate the time you will need for your presentation. The maximum time is 15 minutes. There are assessment penalties for exceeding 15 minutes.

**Note:** the Brian Hill Lecture Theatre includes OHP and projection facilities and has a fixed (desktop) computer projection system running Windows with a good range of visual and multimedia software. If you need to use a laptop, you will have to bring your own and arrange in advance to be sure it works in the Theatre. Computer set-up time is included in the 15 minutes allowed. It may be possible to use the Theatre for dry runs on Sunday 9th November.

Please return your responses in electronic form to Alec McHoul by 13th October: mchoul@murdoch.edu.au if you wish to be included in the Conference.
